NETWORKING AND EVENT COORDINATION

- 2012-2015 Co-organized a Series of Disaster Management Exhibitions (DMEs) held at the Centre for Disaster Preparedness and Management, University of Peshawar.
I was able to coordinate resources and establish communication with relevant stakeholders, i.e., organizations working in the field of humanitarian assistance and disaster management to participate in an annual series of Disaster Management Exhibition (DME) held each year between 2012 to 2015. In these events, each year, more than seventy national and international humanitarian organizations participated and showcased their projects and activities in the field of disaster risk reduction and preparedness in Pakistan. In my capacity as a co-organizer and CDPM faculty, I was able to collaborate and network with UNHCR, UNICEF, WFP, Pakistan Science Foundation, and dozens of local non-governmental organizations to make these events successful. On average, in each of these events, more than 20,000 people belonging to different walks of life visited the exhibition. Being part of CDPM gave me an opportunity to establish a long-lasting relationship with organizations working in the development sector particularly in disaster risk reduction and management.
- 2014 Coordinator for Webinar Sessions in collaboration with Harvard University South Asia Institute (SAI) held at the University of Peshawar.
